TOREL QUINTA DA VACARIA | WHERE LUXURY MEETS TRADITION IN THE HEART OF DOURO

AUGUST 27, 2024

The design of Torel Quinta da Vacaria is an architectural masterpiece crafted by the renowned Luís Miguel Oliveira and Studio Astolfi. This remarkable project not only preserves the original structures of the estate but also introduces a semi-buried building that houses several rooms and suites, along with a new service area featuring an indoor pool and spa. This balance between innovation and environmental respect stands out as a key feature of the hotel. The ongoing collaboration with Galeria Filomena Soares brings a selection of contemporary artworks to the hotel, enriching the experience with a touch of creativity and elegance.

A stack of books and a magazine titled 'INSPIRATION'. The books are arranged in a neat stack, and the magazine is placed on top of them. The cover of the magazine shows a modern interior design.

Integrated into the venerable Quinta da Vacaria, one of the oldest wine estates in the region, this new retreat promises an unparalleled experience, blending contemporary sophistication with the cultural and historical richness of Douro.

Since 2016, Quinta da Vacaria has excelled in producing a distinguished collection of DOC and Port wines, which can now be savored at Torel Quinta da Vacaria itself. The winery, set to open later this year, is a space dedicated to exploring the flavors and aromas of the region, offering wine tastings and gastronomic experiences that promise to delight the senses.

The “A Way of Silence” theme guides the entire experience at Torel Quinta da Vacaria, inviting guests to explore the tranquility of Quinta da Vacaria and the natural beauty of Douro. Each room and suite is named after elements that evoke the region and its spirit, reflecting the Studio Astolfi’s meticulous attention to detail and sophisticated design. Noble materials such as oak and walnut wood, refined fabrics, and tiles blend with custom-designed furniture and objects from international and Portuguese brands.
